War Among the Bill-Posters.

A bill-poster named John Bickerton-under took to paste some bills on a fence over which Moxley claimed exclusive control last night, and for his daring he was arrested and take to the Fifth precinct station house, where he left collateral. Mr. Moxley stated that Bickerton and others had, during the past two weeks, made a daily practice of tearing down or covering over bills which he had put up, and in many cases on boards erected by himself or of which he had purchased control. About an hour after Bickerton was released on security two of Moxley's men came int the station-house, one of them with his head cut quite badly, and stated that they had bee eaten by four other bill-posters, co. sickerton and three friends. The stances were that Moxley's men saw the other the corner of New York avenue and Four-teenth street, and interfered, upon which they were attacked. REVIVAL WORK. Meeting of Clergymen and Others to Prepare the Way-A Committee Appointed to Report a Plan of Work-Views of Prominent Clergy-

A meeting was held yesterday at the room of the Young Men's Christian Association composed of the pastors of many of the evangelical churches, with a sprinkling of lay-men, to take such action as should seem de-sirable in regard to holding union revival metings in this city during the coming autumn and vinter. The meeting was opened by prayer by De. Wills. Dr. Rammond was chosen chairman, when Dr. Gray stated the object of the meeting, adding that any brother who had a speech he wanted to ventilate for union effort or against union effort would have an opportu-

or against use effort would have an opportu-nity to do so.

Dr. Noble being called upon, said that he had read with pleasure the account of the be-ginning of the union effort in Chicago, and had meditated with great estisfaction upon that sublime scene of three bundred pastors gath-ered there, all of different denominations, giv-ing their countenance to Brothers Moody and Sankr., and looking for the blessing of Sod. He thereight this was a speciale that the nation Sanke, and looking for the blessing of Sod. He thought this was especiacle that the nation was booking at in admiration and in great hope, and he believed that it was a speciacle that was very pleasing to the Lord Jesus Christ. We might expect that great city of sin to be moved by the combined powers of God's dear children united in love to Christ in anyeffort to make a gospel field further on. If anything had been demonstrated to the history of the Church during the last few years it had been divise approbation upon the united effort of ministers of Christ in the great work of extending bis cause.

effort of ministers of Christ in the great work of extending his cause.

In connection with this he weeld say that as he understood it the prime object of the union effort, as it now exists indifferent States of the country, is to affect not so much the churches as the outside world. The pentors of all denominations in the city of New York have been so favorably affected by the appearance of Moody and Sankey, and those who joined with him last winter in that city, that they have Moody and Sankey, and those who joined with him last winter in that city, that they have combined to carry on that work on the same principle and in the most public part of the city—the corner of Fifth avenue and Righteenth street. They have leased Chickering hall for work to be done during the present winter, and the idea is to carry out that grand principle for which Rev. Stephen H. Tyng has been laboring so hard during the summer months in his Gospel tent to affect outsiders. months in his Gospel tent to affect outsiders; to bring men to hear the gospel who will not come into our churches; who stand alorf. If he understands it that was the great thought in the minds of men who go for union

effort.

Turning back to our own city, we had a pastial union effort last winter, conducted for four weeks, and representing six different densminations in our city, and while the churches engaged in it were especially blessed, the grand blessing was upon those not in the habit of coming into any church. It you were to ask Brother Rankin or Brother Domer, of the Lutheran Church, or Brother Hammond, of the Methodist Protestant Church, who were the converts who connected themselves with the converts who connected themselves your church—who were the twelve hun men and women that have actually been en men and women that have actually bees enrolled in these six or seven or eight churches
during the last nine months—they would tell
you, as he could say in relation to his own
church, a large portion of them were from a
class not in the habit of going into the house
of God. If ever the sanction of the great head
of the Church was put upon the effort of his
people, that sanction had been put upon the
union effort during the last year. He would people, that sanction has over pur upon the union effort during the last year. He would testify in relation to that effort, being is it from the beginning to the end, that it was to himself personally one of the sweetest experiences of his Christian life, where he saw such

ences of his Christian life, where he saw such works of God in the conversion of men as he had never before seen in a ministry now extending over forty-five years. He was just as much convinced of the propriety of decided union effort in the kingdom of God as he was of the truth of the gospel.

Dr. Gray was next called for, and stated his personal views on the subject under discussion, declining to speak for his church. He spoke of the good work accomplished last winter, and added that he held himself in readiness to join in any union effort. join in any union effort.

Dr. Peyton Brown followed, urging the propriety of having the meetings held at such an hour as not to interfere with regular church

ervices.

Dr. Sunderland said he was perfectly willing to take any place from the lowest among them in the service of Christ, and to work heart and soul, day and night. He believed if anything was to be done here they would have to make was to be done here they would have to make a long slege; it wouldn't do to have any mere temporary arrangement. He continued: I tell you, brethren, if all these pastors, ministers and officers of churches should just be seen by these people standing side by side on the same platform, it would make one of the grandest moral impressions of the truth of Christianity and of the cause of our blessed common Manand of the cause of our bl ter that was ever seen in Washington. That

s my idea.
Other favorable remarks were made by Drs. Wills, Rankin, Chester, Little, Hammond and Dr. O. F. Presbrey stated that it was use Moody this winter; but that from a personal conversation with Mr. Blias, the singer who accompanies Major Whittle, he thought that both these gentlemen could be engaged for the coming work.

the coming work.

After further discussion, the following resolution offered by Dr. Sunderland was adopted:

Resolved, That we, the pastors and officers of the various churches represented in the meet-ing, are of opinion that it is desirable that a union effort should be made to build up the cause of Christ in this city; that in pursuance of this purpose a committee of two from each lenomination be appointed to prepare a plan

The following committees were accordingly appointed: Methodist, Presiding Elder Speke and Dr. Dashlel; Baptist, Drs. Mason and Meador; Congregationalist, Drs. Rankin and Presbrey; Methodist Protestant, Drs. Ham-mond and Murray; Presbyterian, Drs. Wills

and Noble.
On motion, Mr. A. T. Stuart, general secre tary of the Young Men's Christian Associa-tion, was added to the committee, and Dr. Butler and Rev. Mr. Domer, of the Lutheran neeting of their Synod, were requested to act with the committee.

The meeting then closed with prayer by Dr. Little to meet next Monday, the 16th instant, at the same place and hour.

The committee appointed as above will meet to day at 1 o'clock in the Young Men's Christian Association parlor, and will report to the

THE AVENUE PAVEMENT.

The "Imprisoned Detritus" Reduced Rotten Stone-Reasons for Its Decay. o the Editor of the National Republican: Fin: I notice in a recent issue of the Eu some editorial remarks commenting on the taken up at the intersection of Pennsylvani wenue and Tenth street. This corresponden states that "the hydraulic concrete on which this pavement was laid was not put down by this company, but had been iski by other parties one year before." If us it cortainly had the benefit of thorough dryness, which is much more than can be said of the hydraulic much more than can be said of the hydraulic base they are now laying as a foundation for their forthcoming provement. If they could not lay a good pave ment on such a foundation as they had in this case we cannot expect much of the future. Their defender says "the surface could not be reduced to a uniform grade, owing to the want of time given to the company to perform this work." Judging from the length of time already occupied by the company since they have been awarded the contract for paving the Avenue they evidently will not finish it within the limit prescribed by law.

The Star's correspondent writes learnedly about the "dewitus" which covered the surface of the hydraulic concrete base, and how it was "imprisoned" by "a thin layer of coarse amphalt," dec., dec., but, Mr Editor, that sort of sophistry is all very well in the abstract, but it won't do in the concrete Nou can extend the state of amine pieces of this pavement and see where it has rotted from the bottom up, and where there has been a crack in the top surface, (and there were a good many of them.) the water hat gove through and rotted the pave-ment laterally along the line of the crack from top to bottom, the "imprisoned detritus" included.

It is all very well for the correspondent of It is all very well for the correspondent of the Ster to talk about what the Grahamtie Company propose to do in the future, and the "ten years' experience" of some of "the scientific and skilled gentlemen" connected with this company, but in their ten years' ex-perience they have not laid 5,000 square yards of their pavement in this or any other country. It is also very well to talk of the high char-acter of the greatlemen of the commission It is also very well to talk of the high character of the gentlemen of the commission who selected this pavement for the Avenue, (one of whom was the late president of the Grahamite Company,) &c., &c., but, Mr. Editor, this same pavement was laid recently on South street, in Baltimore, and proved utterly worthless and had to be taken up. That laid as a sample in New York has been repaired, and is swept continuously; no water is allowed to remain on it, the best care has been taken of it, and it has been carefully patched in taken of it, and it has been carefully patched in several places; that laid at the battery in New York was a failure. In fact, it is purely an

Caution to the Public. The merit and success of Benson's Capcing Porous Plasters are already clearly estab lished. This indisputable fact has brought out a number of imitators, who seek to be benefited by imposing upon the public articles under the name of Capsicin and Capsiticles under the name of Capsicin and Capsicum Plasters, as being articles similar to Benson's. Be not deceived. Their composition is entirely different, and in no respect the same. The words Capcine will hereafter be cut in every plaster to insure the consumer against counterfeits or imitations. Benson's Capcine Porous Plasters are now conceded to be the most effective remedy ever offered to the public. They give instant relief and cure quicker than any known plaster, liniment or composition. They cure where other porous plasters simply relieve. They contain neither metallic or mineral poisons. YOUNG MEN SPECIALLY INVITED. Policies of the Equitable Life Assurance society are becoming more and more sought for. Over ONE MILLION DOLLLARS are already awaiting distribution to the fortunate holders of these policies in that company, clear profit over the legal reserves accumulated during the short period of about seven years. The premium is the same as on an ordinary life policy. The "Toutine Period" may be fixed by the policy-holder at tea, afteen or twenty years from the lime the policy is taken out. Death Claims maturing in the laterval are paid to the extent of the amount of the policy without profit. All forfeitures accrue to the benefit of those remaining in the class. No return valuation is paid to those who surrender their policies before the completion of the Toutine Period, but all profits made from lapses go to those who counting their policies. All profits of the class are held to accumulate terminate. At the end of the Toutine Periods the policy-holders respectively have the choice to take: I. The full value of the Monie policy and all accumulate profits in cash. 2. The profit only in cash, leaving the policy still in force. In the folicy of the summary of the policy and policy continued in force. 4. The full value of the whole policy and all accumulate profits may be converted into a nanuity for life, and the original policy continued in force. 4. The full value of the whole policy and he required, but the profits only may be so converted and the original policy continued in force. 4. The full value of the whole policy and the original policy continued in force and the original policy continued in force. 4. The full value of the whole policy and the original policy continued in force. The results of this plan are so great in amount that there is no other kind of insurance that can at all compare will it.
